Hindu Baghbans in India

Baghban means “one who looks after the garden.” This unreached people group lives mainly in Uttar Pradesh, Maharashtra, and Karnataka. They grow, harvest, and sell their crops in the markets, some as “green grocers” in their own businesses. Others hold government and business positions of influence in their respective districts. They are a family-oriented, hardworking, and industrious people. They value education for both boys and girls, and some have become teachers and doctors.
