	Ecosystem Type	Tropical Forest

Item Name Item Note

Geological Type Riverine
Elevation 200-500m
Longitude 69.75-71.5W

Latitude 1-1.5N

Climate Heavy rainy season is March to July. Dry season is Sept to Oct. Nov to Dec is

somewhat rainy and Dec to Feb is the long dry season. Temperature is upper 70-90 degree Fahrenheit except for the rainy season where it can be as cool as 65. A couple days of the year it is into the 50s. This is when people sit around the fire. These are called "Sloth Days," because no one can work and they are compared to the lazy sloth. This is named after the legend that the sloth brings the cold weather as it travels

northwest from Brazil.

Language & Linguistics Group Description

Literacy Attitude Somewhat resista

Active Literacy Program No

Comment (Active Literacy Program)

One program a few years ago, where Cubeo was the language of instruction for

kindergarten through 1st grades, and then in second and third grade they transitioned

from Cubeo to Spanish. The program is no longer in use.

Item Name Item Note

Publications In Vernacular Hymn book, biblical study books, dictionary, 50+ other books, newspaper that comes

out 2-3 times a year (1986-1996, but unsure is still published)

Comment (Literacy) Not much is available (57 titles). Spanish literacy is empowering. Literacy in Cubeo is mostly of interest to Christians. They also use Cubeo for writing letters, especially

is mostly of interest to Christians. They also use Cubeo for writing letters, especially to daughters who have moved to another tribe. There is not much motivation to have oral traditions in print. they are interested in the prevention and cure of diseases.

They place a higher priority on education in Spanish than Cubeo.

**Economics** Group Description

Subsistence Type Agriculturalists

Average Annual Income \$300-400

Occupation Farming. Some of them plant cash crops (fruits), mainly cocoa leaves and they also

sell smoked fish. They carve mahogany key chain.

Younger people (most in 20s – 30s) with education have been nurses, dentists, schoolteachers, clerks in stores. Many men do manual labor. Women can be

waitresses in restaurants or maids in Mitu.

Income Sources Cash crops, smoked fish, coco leaves.

Products / Crafts Baskets, fish traps, carved artifacts such as keychains, small canoes, arrows, spears,

letter openers, etc. from mahogany wood.

Trade Partners Exchanges baskets for manioc grating boards made by Curripacos.

Modernization / Utilities Outboard motors (community owned/family), generator & satellite dish, government

has installed fiberglass rainwater dishes/tubs (since 1998). In villages with boarding

**Group Description** 

schools, toilets have to be flushed with a bucket of water.

**Community Development** 

Health Care (Quality) Good

Comment (Health Care) 50% of Cubeos have a basic clinic within 4-6 hours of their home. Improvements have

been made in dental hygiene. There are 50 clinics throughout the Cubeo region.

Diet (Quality) Good

Comment (Diet) No vegetables or milk. Two meals a day; dawn and dusk of manioc bread dipped in

fish or meat stew with hot green peppers. Men provide protein and women provide carbohydrates; supplemented by seasonal insects, fruits and nuts. Sugar cane is also

part of their diet.

Water (Quality) Fair

Comment (Water) 80% of communities have fiberglass rainwater collection barrels since early 1990's and

they have good water. The 20% without water barrels have water problems. Majority

has good water.

Shelter Description Packed dirt floor (the dead are buried in the floor). The smallest homes start about 25

by 30 feet and the largest 50 by 30 feet The house lasts 20 years, and the thatched roofs last 5-10 years. The roofs are either made of thatched palm or zinc. There are four house posts. Walls are lattice work filled in with mud baked by the sun, split palm walls, or on stilts arrived at by tree trunk balanced against door. Front door (river), back door (jungle) one room. Stoves are open fires; clay pots. 7 people usually occupy this house. One end has hammocks for sleeping, the other end is for

cooking, and men receive guests in the middle inside the front door..

Electricity There is electricity available in some of the bigger villages. Around 1992 & 1993 they

installed electricity poles in Tapurucuara.

Energy/Fuel (Quality) Goo

Comment (Energy) There is good quality of gasoline fuel for boats, but it is expensive and people have to

go far to obtain the fuel. Wood is becoming more difficult to obtain because natural

resources are dwindling.

Clothing Women wear below knee length skirts with blouses tucked in. Men wear shirts and

shorts. All but the aged purchase clothes. Older people make their clothes. No shoes.

Transportation Every adult and many boys have their own canoe. The community has an outboard

motor boat. They walk to their gardens.

Life Expectancy close to 70

Leading Cause Of Death Old age, TB, malaria

Community Development)

The government has done a vaccine program in the communities, and has done pre and

post natal care training, which has decreased infant mortality.

Item Name	Item Note		
Society & Culture	Group Description		
Family Structures	Patrilineal nuclear family. Parents raise their own kids.		
Neighbor Relations	Good		
Authority / Rule	Head man; chosen based on respect. He knows Spanish well in order to deal with outsiders. Not necessarily the oldest man, not necessarily one of his sons. Usually it is a job for life; If someone has a disagreement, instead of confronting or resolving the issue, they ignore it or move away. Not many meetings, no pay; only meet if some pressing issue (such as electricity)		
Social Habits/Groupings	Function on sib level. 18 sibs: made up of clans. Dravidian kinship system; classification system. Older/younger based on linking relative. Parallel vs. cross cousins. Villages small, 3 to 4 or 18 to 20 houses. Ref. article Dr. William R. Merrifield.		
Cultural Change Pace	Medium		
Identification With National Culture	Distinct		
Comment (Identification with National Culture)	Feel culturally superior to other indigenous groups because 1) were slave owners, 2) lingua franca, 3) large group. Admire Spanish speaking culture for economic reasons. Don't want to become white (Colombian); don't like daughters to marry white men.		
Self Image	Prestigious		
Comment (Self Image)	See above comment		
Judicial / Punishment System	Judicial terminology difficult to apply to culture. Area/country laws are not applied to the Cubeo because of isolation. Ostracism (non-confrontational). They do not physically punish children; mostly discipline with verbal ridicule.		
Celebrations	Many Colombian holidays, celebrated with drinking and fireworks. The 20th of July is Independence Day. Cubeo holiday is the fruit & fish festival which occurs two times. Christians have Bible conferences instead of festivals. All participate in Colombian holidays.		
Recreations	Older people chew coco leaves (to numb hunger pains, to hallucinate). Sports such as soccer, basketball, volleyball (girls and boys). Group drinking for social recreation. The Christians participate in two Bible conferences instead of the traditional festivals		
Art Forms	The people use red and black dyes to paint geometrical designs on their legs before dancing. They weave baskets and in past times created pottery (clay is disappearing)		
Media	Just about every household has a radio (Spanish radio with news and sports). Some TVs in larger villages.		
Local Language Broadcasting	None		
Attitude To Outsiders	Very receptive		
Attitude To Outsiders	Somewhat receptive		
Comment (Attitude To Outsiders)	They are usually quite receptive to outsiders.		
Attitude To Change	Very receptive		
Attitude To Change	Very resistant		
Comment (Attitude To Change)	The Cubeo are very receptive to technological changes, but very resistant to ideological and spiritual changes.		
Youth	Group Description		
Labor and tasks (6-12 year olds)	Carry water from river, bring firewood, feed chickens & put chickens away at night.  Take care of younger siblings, and help bring food to the house by berry picking and nut gathering. Boys learning to fish starting at age 4 or 5. Children wash own clothes (from 3 or 4).		
Youth Problems (Teens)	Teen pregnancy, alcohol, and drugs because of drug trade.		
Youth Greatest Needs (teens)	The Lord! Either to be content with living way parents/grandparents did (subsistence) or, if educated, need to be provided with gainful employment to use skills learned at school.		
Education	Group Description		
Primary Schools	75-80		
Comment (Primary School Enrollment)	80-90% of children have access to school.		
Secondary Schools	3 (1996)		

Language Of Textbooks Later Years

Reached Status

Item Name **Item Note** 

Secondary School Enrollment Most who want to go to school can. Very little opportunity for use of education in

society.

Spanish

Percent Of Eligible Students Enrolled 33% Teacher To Pupil Ratio 1:24 Language Of Instruction Early Years Spanish Language Of Textbooks Early Years Spanish Language Of Instruction Later Years Spanish

Comment (Language Of Instruction) If teachers know Cubeo then they help in the Cubeo language. Many evangelical

families have kept the biligual school books used in the early 1980s and the parents or

older children teach the younger children at home to read and write in Cubeo.

**Church Growth** 

Reached Classification Evangelized

Total Baptized Catholic: all as babies; most evangelicals baptized again as adults.

Reached

Lay Leaders Evangelicals: 12.

Bible Schools One school (Swiss Indian Mission) which is not in the area (Villavicencio--2 hours by

plane)

Christian Clinics/Hospitals Christian Literacy Centers none

**Religion & Response** 

**Status of Christianity** 

**Status of Christianity** 

Religious Practices & Ceremonies Evangelicals: Sunday & midweek services, communions, baptisms. Animists: fish

and fruit festivals, learn at catechists on Sundays. On a yearly basis a priest will come

by river and bless marriages and baptize babies and say rite for deceased.

Attitude To Christianity Very receptive

Very receptive because about 95% think they are Christian. 20% are very receptive Comment (Attitude To Christianity)

because they are evangelicals, and the other 75% have been baptized by a priest as

babies, so they think they are Christians.

Attitude To Religious Change Very resistant

Religious Analogies & Bridges The Cubeo have a flood story, but unsure of the religious analogy.

Spiritual Climate And Openness Sickness is not a natural occurrence, but the result of poisoning most often through use

of a shaman. It is natural for them to use the same methods against the person who

caused the death through a shaman.

There is a dichotomy in the culture:

Sharing is a cultural norm and to not share causes guilt and shame. Whereas asking a shaman to curse someone is a cultural norm and is not a cause of guilt or shame. Shamans are the ones the non-believing people turn to for protection. The new believer dealing with the cultural norms challenge their whole world view.

Comment (Religion) Primary religion is Roman Catholic but they are syncretistic.

Recommended Approaches None. Catholic Church still has much power. Getting through the terrorist presence is

the greatest barrier for getting into the region. People will listen to the gospel and

there are no constraints or restrictions in the country regarding evangelism.

The Cubeo are hospitable and receptive to any visitors. Because of their receptivity to change, infant mortality has decreased and expected life span rates have increased.

80% of the villages have rainwater collection systems brought in by the government. However, there is always room for more community development and education.

Items For Prayer Pray against apathy and complacency. The Cubeo are not aware of own spiritual

need. There is not much interest in changing the status quo.

**History Of Christianity In Group** 

Current Needs

January 1963 Year Began

By Whom New Tribes Mission

1989 New Testament published. 1994 summary of Old Testament published. Since Significant Events

1996 they hold Bible conferences two times per year.
